Circle One: MusicStart Band Camp/String Camp

Fall 2011 Grade _____

Music training which is presented in a positive and affirming manner benefits children artistically, socially, and academically. At this time children who are younger than grade six are not offered instrumental music instruction in Prescott area schools. However children younger than grade six have the ability to play an instrument; and, an earlier start in this experience is beneficial both to the child, the schools and to the community at large.

As a church with a rich music heritage and a congregation which places a high value on excellence in music, we believe that offering this program will provide an earlier exposure to music which can influence the future of music within churches, community, and school systems.

This program is open to any child in our community. Group instruction for **MusicStart** in band/strings will continue once a week during the 2011-2012 school year.
