

monveeTM

Monvee exists in order to help people discover what is getting in the way of their spiritual growth and then craft a plan to address it. We believe every person who follows Jesus has what it takes to grow their relationship with Him in new and fresh ways. Monvee combines solid theology with innovative technology to deliver a tool that connects people with resources, ways to spend their time, powerful experiences, and relational connections that fit the unique way God designed them to grow.

Monvee began in 2007 in Rockford, Illinois in the context of a local church. Monvee has been and will continue to be a collaborative effort that we hope will help people find out what's getting in the way and then do something about it.

Directions to access Monvee:
